

Familial co - occurrence of diffuse leiomyomatosis and alport syndrome: a clinical case report

Topic	Item	Checklist item description	Line/Page
Title	1	The words “case report” should be in the title along with the area of focus	1-2/1
Key Words	2	Four to seven key words—include “case report” as one of the key words	20-21/1
Abstrakt	3a	What does this case report add to the medical literature?	8-10/1
	3b	Case summary: chief complaint, diagnoses,	14-17/1
	3c	Conclusion: What is the main “take-away” lesson from this case?	17-19/1
Introduction	4	Briefly summarizes why this case is unique and may include medical literature references.	22-58/1-2
Patient Information	5a	De-identified patient specific information.	54-58/2
	5b	Primary concerns and symptoms of the patient.	56-58/2
	5c	Medical, family, and psychosocial history including relevant genetic information.	63-78/2-3
	5d	Relevant past interventions and their outcomes.	59-62/2
Clinical Findings	6	Describe significant physical examination (PE) and important clinical findings.	79-151/3-7
Timeline	7	Historical and current information from this episode of care organized as a timeline (figure or table).	85-192 /3-8
Therapeutic intervention.	8	No specific therapeutic interventions were performed, as the case was primarily diagnostic and observational in nature.	
Observations and outcomes.	9a	If available, patient- and physician-reported outcome measures.	223-227/9
	9b	Important subsequent diagnostic and other test results.	152-192/7-8
	9c	Therapeutic interventions were not described in the article;	

		therefore, adherence to treatment regimens and treatment tolerability were not addressed. The clinical and laboratory follow-up results of the patient were presented.	
	9d	During the observation period, no adverse or unexpected events were recorded. The patient's condition remained stable, with persistent microhematuria and ongoing issues related to auditory and visual function. Impaired renal function was noted in the patient.	/
Discussion	10a	Strengths and limitations in your approach to this case.	219-222/9 228-233/9
	10b	Discussion of the relevant medical literature.	194-216/8-9
	10c	The rationale for your conclusions	235-253/9-10
	10d	The primary “take-away” lessons from this case report (without references) in a one paragraph conclusion.	249-251 /10
Patient Perspective	11	When appropriate include the assessment of the patient or client on this episode of care	165-170 /7-8
Informed Consent	12	The patient should give informed consent. (Provide if requested.)	259-263 /10
